

TRICIA & PIERRE MATTA

Tricia and Pierre Matta, the designers and principal owners of Newton Kitchens & Design, infuse luxury and functionality into their discerning homeowners' living spaces.

What are your specialties in your industry?

TM & PM: At Newton Kitchens & Design, we redefine what is possible. Our team of talented designers, along with our custom fabricators, create unique solutions tailored to your home. Where you may see your space as limited, we see the potential to maximize every inch. What you may think is impossible, we make possible through innovative designs and carefully selected materials such as back-painted glass, exotic veneers, leather-wrapped cabinets or Italian lacquers that flow harmoniously throughout the home.

What is your favorite part of your job?

TM: People always ask what it is like to work with your spouse; some can't imagine it. I wouldn't have it any other way. I am proud of what we have accomplished together. We started with

one display in someone else's space, and today, we occupy a 6,500-square-foot showroom that exudes creativity and art combined with a fantastic group of talented people who make us shine.

What does it mean to be powerful in your area of expertise?

TM & PM: Having the ability to adapt to each client's unique style is one of our greatest strengths. Our team of artisans and designers love the challenge of designing and building thoroughly custom spaces. We approach each project from an entirely different perspective to express each client's individual taste.

What differentiates your business strategy in the industry?

TM & PM: Newton Kitchens & Design creates luxurious spaces for various price points. Our designers can give you an amazing design with multiple material options to stay

within your budget without compromising quality.

What are positive ways you use your power in your community?

TM & PM: We use our power in our community by sharing our collective expertise and passion in various ways. From mentoring aspiring student designers at a local university to collaborating with fellow creatives, we commit ourselves

to nurturing talent and bringing visions to life.
